

SEGUE CONSULTING PARTNERS

Working side by side with educators to maximize student learning

Music Assessment Institute

***Learn-think-collaborate** in this two-day institute! Assessment is gathering evidence of achievement both to help students learn more, and to document what they have already achieved. **Learn** more about performance and other assessments in the music room. With assessments and samples of student work, we'll also **Think** about what to do with the data! **Collaborate** like a PLC with your team or others who teach the same grades/classes to revise assessments and dig deep into the data that's available in our music classrooms. All of this with differentiated and music-experienced support so you leave with practical tools and ideas.*

Wednesday, August 2, 2017
